correspondence documenting a jewish family s personal history of the holocaust and world war ii raya schapiro and helga weinberg found a box of letters among their mother s effects after her death in 1990 they were written by their grandmother

and uncle trapped in prague after the nazi occupation to the girls parents who had escaped to the united states in may 1939 leaving behind raya and helga who were five and seven years old at the time the seventy seven letters reprinted here span a period of two years during which the nazis drew an ever tightening noose of destruction around the jews of prague each letter is followed by notes of explanation and amplification as well as notes on nazi laws and official restrictions and the progress of the war each letter has a censor s stamp on it each envelope bears the still frightening emblem of the third reich the letters dramatically convey the tension growing daily of existence under the nazis and their tone becomes increasingly desperate as every avenue of escape reaches a dead end praise for letters from prague 1939 1941 this book turns an abstraction into a palpable terror and pity chicago tribune a compelling and personal insight into the horrors of the holocaust booklist as it turned out the girls escaped only after months of bureaucratic wrangling while the grandmother and uncle never obtained permission to leave and were deported to the gas chambers at treblinka and auschwitz two years later collected here is the moving correspondence between the adults in prague and the girls parents in the u s publishers weekly

the munich crisis of 1938 in which great britain and france decided to appease hitler s demands to annex the sudetenland has provoked a vast amount of historical writing the era has been thoroughly examined from the perspectives of germans french and british political establishments but historians have had until now only a vague understanding of the roles played by the soviet union and czechoslovakia the country whose very existence was at the very center of the crisis in czechoslovakia between stalin and hitler igor lukes explores this turbulent and tragic era from the new perspective of the prague government itself at the center of this study is edvard benes a czechoslovak foreign policy strategist and a major player in the political machinations of the era the work looks at the first two decades of benes s diplomacy and analyzes the prague government s attempts to secure the existence of the republic of czechoslovakia in the treacherous space between the millstones of the east and west it studies benes s relationship with joseph stalin outlines the role assigned to czechoslovak communists by the viith congress of the communist international in 1935 and dissects prague s secret negotiations with berlin and benes s role in the famous tukhachevsky affair the work also brings evidence regarding the so called partial mobilization of the czechoslovak army in may 1938 and focuses on stalin s strategic thinking on the eve of the world war ii until the fall of the berlin wall it was difficult for western researchers to gain access to the rich archival collections of the east czechoslovakia between stalin and hitler makes ample use of these secret archives both in prague and in russia as a result it is an accurate and original rendition of the events which eventually sparked the second world war

prior to hitler s occupation nearly 120 000 jews inhabited the areas that would become the protectorate of bohemia and moravia by 1945 all but a handful had either escaped or been deported and murdered by the nazis this pioneering study gives a definitive account of the holocaust as it was carried out in the region detailing the german and czech policies including previously overlooked measures such as small town ghettoization and forced labor that shaped jewish life drawing on extensive new evidence wolf gruner demonstrates how the persecution of the jews as well as their reactions and resistance efforts were the result of complex actions by german authorities in prague and berlin as well as the czech government and local authorities

between 1935 and 1940 the nazis incorporated large portions of europe into the german reich the contributors to this volume analyze the evolving anti jewish policies in the annexed territories and their impact on the jewish population as well as the attitudes and actions of non jews germans and indigenous populations they demonstrate that diverse anti jewish policies developed in the different territories which in turn affected practices in other regions and even influenced berlin s decisions having these systematic studies together in one volume enables a comparison based on the most recent research between anti jewish policies in the areas annexed by the nazi state the results of this prizewinning book call into question the common assumption that one central plan for persecution extended across nazi occupied europe shifting the focus onto differing regional german initiatives and illuminating the cooperation of indigenous institutions

the book in the shadow of munich british policy towards czechoslovakia from the endorsement to the renunciation of the munich agreement 1938 to 1942 analyses the varying attitudes and gradual change of british policy towards czechoslovakia in the period from the munich conference in september 1938 to august 1942 when the british government proclaimed the munich agreement as dead and thus having no influence whatsoever on the future territorial settlement the key focus of this work lies in the influence of munich upon the british political scene and upon the resulting british policy towards czechoslovakia in the central european context and also in the repercussions of munich in negotiations with the czechoslovak exile representatives the book is a result of many years of the author s research conducted primarily in the british and the czech archives as well as his reflection of numerous documentary editions diaries memoirs and secondary sources it aims to dispel frequent myths and stereotypes that have so far influenced the czech and partly also anglo saxon historiography in their interpretations of british attitudes towards czechoslovakia immediately before and during the second world war

a chilling biography of the head of nazi germany's terror apparatus a key player in the third reich whose full story has never before been told reinhard heydrich is widely recognized as one of the great iconic villains of the twentieth century an appalling figure even within the context of the nazi leadership chief of the nazi criminal police the ss security service and the gestapo ruthless overlord of nazi occupied bohemia and moravia and leading planner of the final solution heydrich played a central role in hitler's germany he shouldered a major share of responsibility for some of the worst nazi atrocities and up to his assassination in prague in 1942 he was widely seen as one of the most dangerous men in nazi germany yet heydrich has received remarkably modest attention in the extensive literature of the third reich robert gerwarth weaves together little known stories of heydrich's private life with his deeds as head of the nazi reich security main office fully exploring heydrich's progression from a privileged middle class youth to a rapacious mass murderer gerwarth sheds new light on the complexity of heydrich's adult character his motivations the incremental steps that led to unimaginable atrocities and the consequences of his murderous efforts toward re-creating the entire ethnic makeup of europe this admirable biography makes plausible what actually happened and makes human what we might prefer to dismiss as monstrous timothy snyder wall street journal a probing biography gerwarth's fine study shows in chilling detail how genocide emerged from the practicalities of implementing a demented belief system publishers weekly a thoroughly documented scholarly and eminently readable account of this mass murderer the new republic

no comprehensive study has been undertaken about the american learned men and women with czechoslovak roots the aim of this work is to correct this glaring deficiency with the focus on men and women in medicine applied sciences and engineering it covers immigration from the period of mass migration and beyond irrespective whether they were born in their european ancestral homes or whether they have descended from them this compendium clearly demonstrates the czech and slovak immigrants including bohemian jews have brought to the new world in these areas their talents their ingenuity the technical skills their scientific knowhow as well as their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home this accounts for their remarkable success and achievements of these settlers in the new world transcending through their descendants as this publication demonstrates the monograph has been organized into sections by subject areas i.e. medicine allied health sciences and social services agricultural and food science earth and environmental sciences and engineering each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study the selection of individuals has been strictly based on geographical vantage without regards to their native language or ethnical background some of the entries may

surprise you because their czech or slovak ancestry has not been generally known what is conspicuous is a large percentage of listed individuals being jewish which is a reflection of high level of education and intellect of bohemian jews a prodigious number of accomplished women in this study is also astounding considering that in the 19th century they rarely had careers and most professions refused entry to them

the story of stoppard s life is a compelling one and it is laid out with extraordinary detail in this first major biography evening standard double act is the first major biography of one of the world s celebrated most writers from his early theatrical success as the youngest playwright ever produced at the national theatre to his academy award for shakespeare in love tom stoppard s work is renowned for its dazzling wit invention and box office appeal but his real life is a more complicated affair still and this acclaimed and authoritative book reveals the remarkable private story of a man who from childhood had to invent his own personality and whose multi layered dramas reflect the enduring contradictions of his life an impressive biography it makes a good story out of that most unpromising subject an unqualified and extended triumph spectator appealingly embellished with stoppard s shrewd witticisms about his work and full of keen perceptions of its own double act offers an exhaustive and enlightening overview of a singular talent that is happiest when expressing itself in dual ways sunday times nadel is excellent at providing an exposition of stoppard s ideas and the wider social context in which he lives independent on sunday a searching biography of this mercurial writer nadel builds an engrossing picture of someone in continual self reinvention jewish chronicle stoppard s playwriting career unsurprisingly constitutes the largest component of the biography and the production details gossip and contractual facts make for fascinating reading irish times if the genius of nadel s subject lies in paradox it also needs genius to turn that paradox into an event this book is one and a palpable hit good book guide essential reading for all students of theatre hampstead highgate
